About us

We are Arvind Construction Company, a company with a progressive and professional approach aiming at undertaking civil construction works in India as well as abroad. Our company is one of the leading construction organizations in the Indian sub-continent and have successfully executed various construction jobs of high reputation both in the country as well as abroad. We had started with an annual turnover of about Rs.2 Million (Rs.20 lacs) in the first few years, which has now grown to an annual turnover of Rs.14720 Million (Rs.147 crores) in the recent past. We have also signed Five MOU's with the Himachal Government for setting up Mini Hydel Projects, totaling to about 15 MW in Sirmour District on Build-Own-and-Operate- Basis.

Established in the year 1962, at New Delhi, we have consistently worked with the objective of business ethics and management techniques and have made an all-round growth in activities of diversified nature. As an organization, we have successfully diversified into mining of Chrome Ore and Iron Ore and manufacture of Concrete Sleepers for Railway, Health Care, Investment Finance activities and Exports of Natural stone. Our subsidiary Arvicon International is one of India's prime natural stone mining & processing company.

About

Arvicon International

Arvicon International is among the top 5 natural stone exporters in North India and is exporting more than 3000 TEU's annually. It offers marble, granite, sandstone and limestone in forms of tiles, blocks, slabs, mosaics, natural stone tiles, natural stone floor tiles, natural stone wall tiles, etc. The array of natural stones offered is known for more exacting standard and ultimate beauty & endurance. The company believes in continually upgrading its processing techniques and embracing the latest technology to enhance product quality & variety. Arvicon directly employees 75 professionally qualified trained professionals and executives and indirectly through sub contractor and sub supplier, there are more than 800 workers working exclusively for Arvicon International. The company has developed and invested in substantial infrastructure and stocks to meet the requirement of its customers. During the several years of industry presence years, Arvicon has gained diverse experience of working with varied clients and meeting their specific requirement.

Our

Infrastructure

Arvicon has a well laid processing unit at Hattipura, Bundi, which caters to the varied and specific demands of natural stone processing. The facility are well equipped with efficient machines to process natural stones material and deliver optimum variety & finishing. The company has its branch office in Kota, Rajasthan, which primarily co-ordinates with all mines and site units. It also has its stock yard in Kota Industrial Area, which specifically caters to materials coming from mines outside the state of Rajasthan. The other stockyard is at Bijolia Mines Area, which is situated almost in the center of all the sandstones mines near Kota and is used specifically for hand-cut tiles.

With corporate office at Delhi, the company executes all it's product designing and export monitoring from this office. Well equipped facility and efficient networking has enabled Arvicon to export Indian natural stones across all markets in Europe and Latin and Southern America.

ARVICON

Crafted By Nature

Arvicon International dealing in exports of Sandstones, Slates, Marbles, Limestones, Granites and Quartzites is a division of Arvind Construction Company Ltd.

The company's subsidiary P.C. Bangur Minerals Ltd. established in the year 1988 is one of the leading kota stone mine owners with mechanized mining and processing.

ACCL a professionally managed company is engaged in Mining of Limestone, Exports of Building Stones, HealthCare, Financial Market & Real-estate Investments with an experience of 6 decades.
